Warm Handoff Program

The Warm Handoff Program is a program consisting of mobile assessors serving Schuylkill County Hospitals, especially designed to connect people with Drug and Alcohol services. We assess, coordinate, and refer to detox, residential rehab, outpatient services or Medically Assisted Therapy (MAT).

We also work with other resources if you do not have insurance. The Warm Handoff Program does not provide transportation, however we work with hospitals, case managers, and facilities to coordinate transportation.

Patients Seeking Services

1. Go to your local Hospital Emergency Room
2. Inform Hospital Staff that you are seeking Drug and Alcohol Services.
3. Hospital Staff will contact the Warm Handoff Program.
4. Warm Handoff will come to the hospital to complete an assessment, determine a Level of Care and help to place you in the appropriate treatment.
