Board of School Directors
Panther Valley School District
Lansford, Pennsylvania

We have performed the OMB Circular A-133 Single Audit of the Panther Valley School District for the year ended June 30, 2014. OMB Circular A-133 indicates that the auditee is responsible for ensuring appropriate submission of the audit reports to appropriate government officials.

The reporting packages must be submitted no later than 30 days after you receive our Single Audit Report but no later than nine months after the year end (March 31, 2015).

The Single Audit was done to fulfill the requirements of the OMB Circular A-133. It entailed: (1) an audit of the general purpose financial statements and our opinion thereon; (2) an examination of the Schedule of Expenditures of Federal Awards and our opinion thereon; (3) a review of the internal control structure based solely on the understanding obtained as part of the audit of the general purpose financial statements; (4) a review of the internal control structure made as a part of the audit of the federal financial assistance programs; (5) a review of compliance based on an audit of the general purpose financial statements in accordance with Government Auditing Standards; and (6) a review of compliance with laws and regulations related to the federal financial assistance programs and our opinion thereon.

As part of our report, we have enclosed a management letter for the fiscal year ended June 30, 2014.

When filing the Single Audit Report and the Data Collection Form with the agencies listed on Page 2, the District must enclose the appropriate number of reports as listed.

INDEPENDENT AUDITOR'S REPORT

Board of School Directors
Panther Valley School District
Lansford, Pennsylvania

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Panther Valley School District, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Panther Valley School District, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

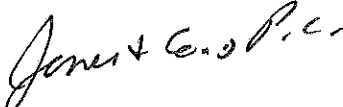

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 9-16 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Panther Valley School District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2014, on our consideration of the Panther Valley School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Panther Valley School District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Directors
Panther Valley School District
Lansford, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Panther Valley School District, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Panther Valley School District's basic financial statements, and have issued our report thereon dated November 25, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Panther Valley School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Panther Valley School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Panther Valley School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Panther Valley School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Board of School Directors
Panther Valley School District
Lansford, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited the Panther Valley School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Panther Valley School District's major federal programs for the year ended June 30, 2014. The Panther Valley School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Panther Valley School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Panther Valley School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Panther Valley School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Panther Valley School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

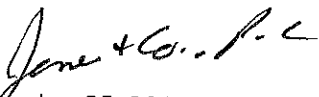

Report on Internal Control over Compliance

Management of the Panther Valley School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Panther Valley School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Panther Valley School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Panther Valley School District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2014. Please read it in conjunction with the District's financial statements, which begin on Page 17.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 17 and 18) provide information about the activities of the District as a whole and present a long-term view of the District's finances. Fund financial statements start on page 19. For governmental activities, the fund financial statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

Reporting the District as a Whole

One of the most important questions asked about the District's finances is, "Is the District as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net assets and changes in them. You can think of the District's net assets (the difference between assets and liabilities) as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the District's property tax base and student enrollment.

In the Statement of Net Position and the Statement of Activities, we divide the District into two kinds of activities:

- Governmental activities – The District's educational services, including administration costs, and capital project activities are reported here. Property taxes, state and federal funding, and bond proceeds finance most of these activities.
- Business-type activities – The District's food service operation is reported here. State and federal funding and charges for meals finance all of the food service activities.

Reporting the District's Most Significant Funds

The fund financial statements begin on page 19 and provide detailed information about the most significant funds – not the District as a whole. The District's two kinds of funds – governmental and proprietary – use different accounting approaches.

- **Governmental funds** – The District's educational services, including administration costs and capital project activities, are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method call modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship (or differences) between the governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation statement contained in this report.
- **Proprietary funds** – When the District charges students and employees for meals provided, these transactions are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the District's enterprise fund (a component of propriety funds) is the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows, for proprietary funds.

Net assets of the District's governmental activities decreased by 3% (\$12,054,885 compared to \$12,380,001). Unrestricted net assets - the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - changed from \$7,612,369 to \$7,833,502 at the end of this year.

This decrease is a result of the planned budget deficit of the General Fund.

The net assets of our business-type activities decreased by 8% (\$229,251 compared to \$248,487). This decrease was primarily related to the depreciation of capital assets and spending of cash resources.

General Fund

Revenues and Expenditures decreased for the year because of prior year bond refinancing.

Fund balance at June 30, 2014 is \$4,148,966 a \$32,113 decrease from the prior year. The budgeted shortfall was estimated at \$1,670,068 therefore the year end result was a positive variance of \$1,637,955. This positive variance was due to higher than expected EIT and Delinquent Earned Income tax revenues. Also the district expenses were under budget in the JROTC account and the Library account.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The District's Board of Education considered many factors when setting the preliminary 2015-2016 budget, tax rates, and fees that will be charged for the business-type activities.

The general fund budget estimates revenue of \$24,366,957, an increase of 2% over the prior year amount of \$23,843,153. This increase is from a preliminary 4 mill real estate tax increase. This increase is due because of not raising taxes in the past four years. Although administration recommended a tax increase the prior four years the board of directors have not approved one. The budget includes estimated expenditures of \$24,941,091, an increase of 2% over the prior year amount of \$24,542,359. This increase is due from the increase in the PSERS rate of 24% from 21.40% and increases in salaries.

On June 27, 2006 the Pennsylvania Legislature passed Act 1 of 2006, the Taxpayer Relief Act. This Act utilizes gambling revenue from slot machines to help offset real estate taxes. This year approved taxpayers were given \$211 to offset their real estate taxes. In addition, all Districts are subject to voter referendum for tax increases that exceed an annual index as established by the Pennsylvania Department of Education. The Act provides for 10 limited exceptions to the referendum requirements and becomes effective for the District's 2007-2008 fiscal year. The district filed for these exceptions for the 12-13 school year and was awarded over two hundred thousand dollars in exceptions. The district did not need to use these exceptions however.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our taxpayers, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. RECONCILIATION OF GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION

GOVERNMENTAL FUNDS

AS OF JUNE 30, 2014

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS \$ 10,140,611

Amounts reported for governmental activities in the statement
of net assets are different because:

Prepaid expenses 1,227,995

Capital assets used in governmental activities are not financial
resources and, therefore, are not reported as assets in
governmental funds.

Cost of capital assets 45,509,018
Less: accumulated depreciation (17,162,198)

Long-term liabilities, including bonds payable, are not due and
payable in the current period and are not reported as liabilities
in the funds.

Bond principal payable (29,964,600)
Compensated absences (144,401)

Delinquent property taxes receivable will be collected
this year, but are not available soon enough to pay for the current
period's expenditures and are, therefore, deferred in the funds. 2,158,108

Governmental funds report debt issuance costs and debt issuance
premiums and discounts as an other financing source or use at
the time of issuance. Premiums and discounts are reported as
an unamortized asset or liability in the District-wide financial statements. 525,368

Governmental funds do not report a liability for accrued interest
until due and payable. (235,016)

CHANGES IN FUND BALANCES TO STATEMENT OF ACTIVITIES**

GOVERNMENTAL FUNDS

FOR THE YEAR ENDED JUNE 30, 2014

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ 5,067,025
Because some property and personal taxes will not be collected for several months after the District's year end, they are not considered as available revenues in the government funds.	290,967
Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.	1,300,800
Previous year bond issuance costs are expensed in the governmental funds when incurred but are amortized in the Statement of Activities.	(36,116)
Expenses reported in the Statement of Activities, such as compensated absences and health insurance, do not require the use of current financial resources, and therefore, are not reported as expenditures in governmental funds.	203,733
Interest is recognized in governmental funds when paid but is accrued in the Statement of Activities.	(26,797)
Governmental funds report capital outlays as expenditures versus as capital assets in the Statement of Activities.	473,760
Depreciation expense is recognized in the Statement of Activities but is not recognized in governmental funds.	(907,013)
Issuance of debt is a revenue in governmental funds	<u>(5,700,000)</u>

PANTHER VALLEY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Panther Valley School District (the "District") is governed by the Panther Valley School District Board of Education (the "Board"), which has responsibility and control over all activities related to public school education within the District. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters.

The financial statements of the Panther Valley School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) approved Statement No. 34, Basic Financial Statements-and Management's Discussion and Analysis -for State and Local Governments.

The financial statements include:

- Management's Discussion and Analysis (MD&A), providing an analysis of the District's overall financial position and results of operations.
- Financial statements prepared using full-accrual accounting for all of the District's activities.
- A change in the fund financial statements to focus on major funds.

PANTHER VALLEY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

DEFINING THE REPORTING ENTITY

The reporting entity was defined by applying the following criteria which were established by the Governmental Accounting Standards Board Statement Number 14, "The Financial Reporting Entity".

- (A) Financial interdependency
- (B) Selection of governing authority
- (C) Designation of management
- (D) Ability to significantly influence operations
- (E) Accountability for fiscal matters.

In defining the reporting entity, all known federal program awards received by the entity have been included and have been subjected to the terms and requirements of the Single Audit Act.

In applying the above criteria, the District does not have any component units nor is the District a component unit of any other primary government.

BASIS OF PRESENTATION

District-wide statements - The statement of net assets and the statement of activities provide information about the financial activities of the overall district, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-Type activities are financed in whole or in part by fees charged to external parties.

NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BASIS OF PRESENTATION - continued

The statement of activities presents a comparison between direct expenses and program revenues for each business-type activity of the District and for each function of the District's governmental activities.

- Direct Expenses are those that are clearly identifiable with a specific program.
- Program revenues include 1) charges to students or recipients who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.
- Taxes and other items not properly included among program revenues are reported as general revenues.

Depreciation expense can be specifically identified by function and is included in the direct expenses of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. The effect of interfund activity has been removed from these statements.

Fund Financial Statements - The fund financial statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category - *governmental, proprietary and fiduciary*-are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

PANTHER VALLEY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BASIS OF PRESENTATION - continued

Proprietary fund operating revenues, such as charges for services result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities. Enterprise fund operating revenues are related to charges for food in the District's cafeteria. The primary non-operating revenues are federal nutrition program grants and commodities received from the U.S. Department of Agriculture.

The fiduciary funds are presented in the fiduciary fund financial statements by type (agency). Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the District, these funds are not incorporated into the District-wide statements.

The District reports the following major governmental funds:

General Fund - The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Capital Projects Fund - The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary and trust funds.

The District reports the following major proprietary fund types:

Food Service Fund - The Food Service Fund is used to account for all financial transactions related to the food service operation.

Other fund types:

Agency Funds - These funds account for assets held by the District as an Agent for various student groups and clubs.

FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

BASIS OF ACCOUNTING

The district-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

All business-type activities and enterprise funds of the district follow FASB Statements and Interpretations on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

BUDGETING

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general fund. Project-length financial plans are used for capital projects funds. All unencumbered budget appropriations, except capital projects, lapse at the end of each fiscal year.

At the fund level, actual expenditures cannot exceed budgeted appropriations; however, with proper approval by the school board, budgetary transfers between account can be made. The budgeted financial statements represented in this report reflect the final budget authorization, including all transfers.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

DEPOSITS AND INVESTMENTS

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments with a maturity of one year or less at the time of purchase are recorded at cost or amortized cost. Those with a maturity of greater than one year are reported at fair value. Changes in the fair value of investments are recorded as investment income.

INVENTORY

Inventories are recorded using the consumption method of accounting and consist of purchased food, supplies, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method. Surplus commodities are stated at standard costs, as determined by the Department of Agriculture. In the fund based financial statements, commodities received are recorded as deferred revenue until consumed.

CAPITAL ASSETS

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$1,500. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

CAPITAL ASSETS - continued

Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Useful Life</u>
Land	Not Depreciated
Land Improvements	20 years
Buildings and Improvements	15-30 years
Furniture and Equipment	5-15 years
Vehicles	3-15 years

COMPENSATED ABSENCES

Compensated absences are those for which employees receive pay. A liability is recorded through the use of estimates, which apply historical data to current factors. The District maintains records of unused absences and applies current and/or contracted compensation rates to the various types of compensated absences. Sick leave is recorded using the termination payment method, which has no current maximum per employee. The District allows only restricted sabbatical leave and therefore, has no recorded liability in advance of the sabbatical.

ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

In government-wide financial statements as well as proprietary fund financial statements, all accrued liabilities and long-term debt are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

RESTRICTED ASSETS

Restricted assets are cash and cash equivalents whose use is limited by legal requirements such as a bond indenture. Restricted assets are reported only in the District-wide financial statements.

FUND EQUITY

In the fund financial statements, governmental funds report fund balance in accordance with GASB Statement No. 54 (see Note 16).

NET ASSETS

Net assets represent the difference between assets and liabilities in the District-wide financial statements. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets.

FOOD SERVICE FUND - UNALLOCATED COSTS

The District does not attempt to allocate "Building-Wide Costs" to the Food Service Fund. Thus, General Fund expenditures (utilities, janitorial services, insurance, etc.) which partially benefit the Food Service Fund are not proportionately recognized within the Food Service Fund. Similarly, the Food Service Fund does not recognize a cost for the building space it occupies (no facilities rental expense).

POST EMPLOYMENT HEALTH CARE BENEFITS - COBRA BENEFITS

Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the District makes health care benefits available to eligible employees and eligible dependents. Certain requirements are outlined by the federal government for the coverage. The premium plus 2% administration fee is paid in full by the insured on or before the tenth day of the month for the actual month covered. This program is offered for a duration of 18 months. There is no associated cost to the District under this program, and there was one participant in the program for medical coverage and two participants for dental/vision coverage as of June 30, 2014.

RETIREE BENEFITS

In addition to the pension benefits described in Note 7, the District makes health care benefits available to all eligible employees who retired from the District. The premium is paid on or before the tenth day of the month for the actual month covered. The cost associated to the District under this program was \$897,070. and there are currently 35 participants in the program as of June 30, 2014.

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS:

DEPOSITS

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. The deposit policy of the school district adheres to state statutes and prudent business practice. Cash equivalents are defined as short-term, highly liquid investments that are readily convertible to known amounts of cash and include investments with original maturities of three months or less. Cash and cash equivalents consist of demand deposits at various financial institutions, a money market mutual fund investment in Pennsylvania Treasurer's Invest Program for Local Government, a money market fund and certificate of deposit, the Pennsylvania School District Liquid Asset Fund (PSDLAF), and cash on hand of \$1,940. The market values of deposits are equal to the cost of the deposits.

PANTHER VALLEY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS - continued
FOR THE YEAR ENDED JUNE 30, 2014

NOTE 2 - DEPOSITS AND INVESTMENTS - continued

DEPOSITS - continued

Under Section 440.1 of the Public School Code of 1949, as amended, the District is permitted to:

Deposit in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral as provided by law is pledged by the depository.

At June 30, 2014, the carrying amount of the District's deposits was \$3,686,828. and the bank balance was \$4,580,366. Of the bank balance, \$746,604. was covered by federal depository insurance coverage, and \$3,827,578. was exposed to custodial credit risk because it was uninsured and the collateral held by the depository's agent was not in the District's name. It should be noted that the District's deposits are collateralized in accordance with Pennsylvania Act 72.

INVESTMENTS

The investment policy of the school district adheres to state statutes and prudent business practices. The investments of the school district consist of certificates of deposit and U.S. Agency Obligations as authorized by the Board. Investments are stated at cost including accrued interest which approximates market value.

The District invests in the Pennsylvania School District Liquid Asset Fund (PSDLAF) and the Pennsylvania Treasurer's Invest Program for Local Government as authorized by the Board. PSDLAF was established to enable school districts to pool funds for investment in instruments authorized by Section 440.1 of the Pennsylvania Public School Code of 1949, as amended. Pennsylvania Treasurer's Invest Program for Local Government insures that it will not place deposits with any single issuing institution if the largest participant's pro rata share of such deposits exceeds \$100,000., unless such deposits are secured by (1) Treasurer, federal agencies (collateralized at 102%) or (2) certificates of deposit (collateralized by 120%).

As of June 30, 2014, the District had the following investment.

Pennsylvania Local Government Investment Trust (PLGIT)	\$7,416,604. =====

NOTE 2 - DEPOSITS AND INVESTMENTS - continued

INVESTMENTS - continued

Although not registered with the Securities and Exchange Commission and not subject to regulatory oversight, PLGIT acts like a money market mutual fund in that its objective is to maintain a stable net asset of \$1 per share, is rated by a nationally recognized statistical rating organization and is subject to an independent annual audit.

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. It is the practice of the District to limit its interest rate risk by investing in securities with maturity dates under one year. At June 30, 2014, the District's investments in securities of U.S. agencies had maturity dates of less than one year.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

Credit Risk

Under Section 4440.1 of the Public School Code of 1949, as amended, the District is permitted to invest its monies as follows:

Obligations of (1) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (2) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (3) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

Concentration Risk

The District does not have a policy that would limit the amount it may invest in any one issuer. More than five percent of the District's investments are Pennsylvania Local Government Invest Trust (PLGIT). Those investments are 100 percent of the District's total investments.

RECONCILIATION OF CASH, CASH EQUIVALENTS, AND INVESTMENTS

The classification of cash, cash equivalents, and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9. A reconciliation between classifications of cash and investments on the combined financial statements and the classifications per GASB Statement No. 3 is as follows:

	Cash & Cash Equivalents	Investments

NOTE 7 - PENSION PLAN:

PLAN DESCRIPTION

Name of plan: Public School Employees' Retirement System (The System).

Type of plan: Governmental cost-sharing multiple-employer defined-benefit plan.

Benefits: Retirement and disability, legislatively mandated ad hoc cost-of-living adjustments, healthcare insurance premium assistance to qualifying annuitants.

Authority: The Public School Employees' Retirement Code (Act No.96 of October 2, 1975, as amended) (24Pa.C.S.8101-8535).

Annual Financial Report: The System issues a *Comprehensive Annual Financial Report (CAFR)* that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Beth Girman, Office of Financial Management, Public School Employees' Retirement System, 5 N 5th Street, Harrisburg, PA 17101-1905 or by emailing Beth at bgirman@pa.gov. FUNDING POLICY

Authority: The contribution policy is established in the Public School Employees' Retirement Code and requires contributions by active members, employers, and the Commonwealth.

CONTRIBUTION RATES:

MEMBER CONTRIBUTIONS

Active Members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the members qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.50% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.30% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.50% and 9.50% and Membership Class T-F contribution rate to fluctuate between 10.30% and 12.30%.

EMPLOYER CONTRIBUTIONS

Contributions required of employers are based upon an actuarial valuation. For fiscal year ended June 30, 2014, the rate of employer's contribution was 16.93% of covered payroll. The 16.93% rate is composed of a pension contribution rate of 16.00% for pension benefits and 0.93% for healthcare insurance premium assistance.

NOTE 10 - RISK MANAGEMENT:

The District is a member of the I.U.21 Trust - a non-profit organization which is an association of four governmental entities established to serve as a depository for School District contributions to be used to make payments of premiums to carry into effect the provisions of the Plan established and maintained by the Trustee for the purchase of group health insurance, medical, surgical or hospital care benefits. Members of the Trust include, Jim Thorpe Area School District, Panther Valley School District, Weatherly Area School District and Carbon County Vocational Technical School.

The Plan is a self-funded health plan and the administration is provided through Blue Cross of Northeastern Pennsylvania and Pennsylvania Blue Shield, 70 North Main St., Wilkes Barre, PA 18711. The Plan is not insured.

NOTE 11 - COMMITMENTS AND CONTINGENCIES:

The District participates in federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for any expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of non-compliance which would result in the disallowance of program expenditures.

As of January 15, 2013, the District entered into a tentative agreement with the teachers union for a four year contract.

During the normal course of business, the District is subject to numerous disputes and claims. At June 30, 2014, there were no items of pending or threatened litigation which management feels would have a material effect on the District's financial condition.

NOTE 12 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS:

PLAN DESCRIPTION

The Panther Valley School District Retiree Health Care Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the School Board. The Plan provides postemployment healthcare benefits to eligible retirees of the District in accordance with the various labor contracts and personnel policies. At July 1, 2013, 31 retired employees were eligible to participate. Inasmuch as the Plan has no assets, reporting an other employee benefit trust fund in the accompanying financial statements is not required nor was a separate or stand-alone report issued.

FUNDING POLICY

The contribution requirements of plan members and the District are established and may be amended by the School Board, subject to applicable labor contracts. For retirees who meet the eligibility requirements, Panther Valley School District will pay the following toward coverage:

- Teachers: Full cost of individual medical coverage until medicare eligibility.
- Act 93 Employees: Full cost of individual medical, dental, and vision coverage until medicare eligibility.
- Teamster Local 773 Employees: Full cost of individual and spouse medical, dental and vision coverage until medicare eligibility.
- Confidential Employees: Full cost of individual and spouse medical, dental and vision coverage until medicare eligibility.
- Teamster Local 773 Café Employees: Full cost of individual medical coverage until medicare eligibility.

The District may contribute the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. For 2014, the District made no contributions and instead elected to continue funding on a *pay-as-you-go* basis, which amounted to \$897,070. for 2014. These costs are recognized as an expense when claims or premiums are paid.

ACTUARIAL METHODS AND ASSUMPTIONS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of potential occurrences of certain events in the future. Examples include assumption about future employment, mortality, healthcare costs trends, inflation, etc. Amounts determined regarding the funded status of the plan and the annual required contributions of the District are subject to constant changes and modifications as actual results are compared with past expectations and new estimates and assumptions are formed regarding the future. Projections of retiree benefits for financial reporting purposes are based on current plan activities as it is handled by the District and the benefits are received by the eligible plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the District and plan members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2013, actuarial valuation, the Unit Credit under which the benefits (projected or unprojected) of each individual included in an actuarial valuation are allocated by a consistent formula to valuation years. The actuarial present value of benefits allocated to a valuation year is called the normal cost. The actuarial present value of benefits allocated to all periods prior to a valuation year is called the actuarial accrued liability. The attribution period ends when a participant is eligible for benefits. There was also an inflationary rate assumption factored into the calculation. Per the actuarial study, the assumed rate ranges from 10.0% in the short-term to 5% in the long-term for health care related costs. The UAAL is being amortized as a level percentage of active member payroll over a period of 20 years.

NOTE 13 - GASB STATEMENT NO. 54:

On June 15, 2010, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 54 (Fund Balance Reporting and Governmental Fund Type Definitions). This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB-54 establishes criteria for classifying fund balances into specifically defined classifications that should be based on hierarchy that reflects the extent to which the government is bound to honor constraints on how those funds can be spent. Established classifications are as follows:

Nonexpendable – Amounts that cannot be spend because they are either in a nonspendable form or are legally or contractually required to be maintained intact.

Restricted – Amounts constrained to be used for a specific purpose stipulated by constitution, external resource providers or through enabling legislation.

Committed – Amounts constrained to be used for a specific purpose determined by a formal action of the School District Board of Directors (the district's highest level of decision-making authority).

Assigned – Amounts intended to be used for a specific purpose by the finance committee or an individual authorized by the governing body.

Unassigned – Residual amounts available for any purpose not contained in other classifications.

ORDER OF FUND BALANCE SPENDING POLICY

The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting entries.

First, nonspendable fund balances are determined. Then, restricted fund balances for the nongeneral funds are classified as restricted fund balance.

It is possible for the nongeneral funds to have negative unassigned fund balance when nonspendable amounts plus the restricted fund balances for specific purpose amounts exceed the positive fund balance for the nongeneral fund.

MINIMUM FUND BALANCE

The District's school board policy states:

- 1.) The school district will strive to maintain an unassigned general fund balance of not less than four percent (4%) and not more than eight percent (8%) of the budgeted expenditures for that fiscal year.

NOTE 14 - RELATED ORGANIZATIONS:

Not included in the School's District financial statements are any Parent-Teacher Associations (PTA), Parent-Teacher Organizations (PTO) and athletic and band booster clubs. These agencies provide services to students and employees of the School District, but are separate legal entities having sufficient autonomy in the management of their own affairs to distinguish them as separate from the administrative organization of the School District. The School District does not account for these entities as component units or joint ventures; it does not maintain an ongoing financial interest or have responsibility for these entities.

NOTE 15 – CHANGE IN ACCOUNTING PRINCIPLE/PRIOR PERIOD ADJUSTMENT:

Effective July 1, 2013, the District adopted Governmental Accounting Standards Board Statement No. 65, *Items Previously Reported as Assets and Liabilities*, to be in conformity with generally accepted accounting principles. The effects from this statement decreased closing costs net of accumulated amortization and decrease net position by \$991,475.

NOTE 16 – SUBSEQUENT EVENT/CHANGE IN ACCOUNTING PRINCIPLE:

In June 2012, the Governmental Accounting Standards Board ("GASB") issued Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27. This statement is intended to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement. The District is required to adopt Statement No. 68 for its fiscal year 2015 financial statements.

PANTHER VALLEY SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2014

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES:

The accompanying Schedule of Expenditures of Federal Awards is prepared on the accrual basis of accounting.

NOTE 2 - COMMODITIES:

The beginning and ending deferred income figures listed represent the beginning and ending commodities inventories in the Cafeteria Fund. These commodities are received through the State from the U.S. Department of Agriculture. The commodities are valued at amounts assigned to the various items by the U.S. Department of Agriculture when the commodities are offered.
